**FROM OUR CHIEF OF STAFF...**

**Follow The Science**

One of the most used (and abused) terms during this time of Covid-19 trials and hyper-partisan division is "Follow The Science" after which politicians of all parties "Follow The Politics" and find some scientist(s) to give them support. I submit to you that what we should be doing is "Follow The Science Through Faith". I not only believe that this is what the Lord expects and desires; I believe it is what works.

SCIENCE

Unfortunately, science is being portrayed as all-knowing with answers for everything. That is simply not true and never has been. As proof of this premise, I offer the following.

- "Science" believed that the world was flat.
- "Science" believed that the Sun revolved around the Earth.
- "Science" believed putting leeches on people would make them well.
- ....

Actually, "Science" is a method used by humans to better understand the physical world. It requires open discussion and disagreement between men and women of good will which will ultimately lead to a better understanding of "how things work".

FAITH

God has given us prayer as a gift and tool which is often under-utilized by Christians of all persuasions. I do not believe that the Lord ever wanted us to use "Science without Faith" or "Faith without Science", but I do believe to the core of my being that we should use Science Through Faith.

AN EXAMPLE

Like most Snowden men, my younger son has been blessed with having a wife well above his pay grade. Carolyn is recovering from a bout with Covid-19, and she was in very dire straits for an extended time. She was in Mayo Clinic in Jacksonville for 21 days with most of that time spent in ICU, and the initial phase of her recovery did not go well; we were all very concerned. When we changed from concern to prayer improvement began, and she is now home with her family. I believe to the depths of my soul that I witnessed a miracle worked through the doctors at Mayo Clinic.

Am I saying or implying that using Science Through Faith guarantees healing? Certainly not, and I have personal proof of this! I am saying that this method keeps us in the will of the Lord and helps us to make sense of what is non-sensical as well as making us a solid witness to the power of our Lord.
